

February 24, 1994

Reverend William Lynn
222 North 17th Street
Philadelphia, PA 19103-1299

Dear Father Lynn,

On February 15, 1994, we had a treatment team meeting regarding Father Avery's course of treatment. When Father Avery was discharged October 22, 1993, the details of his therapy aftercare plan were not in place because he had not received a ministry assignment. I have been seeing Father Avery in individual therapy on a weekly basis since December. This was after he returned from vacation and had been assigned to Nazareth Hospital.

He will be seeing Francis Meehan for spiritual direction once per month. However, the rest of his aftercare integration team is not in place and he has not been meeting with them. During the next 90 days Father Avery will be working with Tom Dugan to work out these details of his aftercare.

As always, please feel free to contact me if you have any questions, comments or ideas which you feel would further Father Avery's therapeutic progress.

Best wishes to you in your ministry.

Sincerely,

Jeanette Weychert, Ph.D.
