Father Lynn,

I wanted to thank you for your past support in helping me confront the abuse I suffered from Ed Avery. There has been something troubling me recently and I need your help. I've left the Philadelphia area for some time but I left with a question unanswered. What in the end happened to him. I'm not asking for details what I want to know is is he rehabilitated or in a situation where he can't harm others. Will the diocese vouch for the safety of its children. For my peace of mind I need to know.

As for me I am completing my medical training in Tucson. I still struggle with the legacy of what happened to me and it still hinders my goal of becoming more fully integrated. I'm not in therapy now due to time and financial constraints but I hope to resume again soon. Thanks again for your consideration.

Sincerely,

James
