Dear Father Lynn,

The purpose of this letter is to inform you that Father Edward Avery is continuing to actively participate in a treatment program through the Anodos Center of St. John Vianney Hospital and is making progress toward the goals of treatment. The goals are three fold:

- a) to live a balance lifestyle within the active ministry;
b) to maintain his health (monitoring medical condition)
c) to maintain communication with his superiors.

His program of therapy is structured and has spirituality component as well as a component that monitors his relationships and his use of time.

This treatment approach for Father Avery is positive and I anticipate he will continue to reach the goals that are set.

Please contact me if you have any questions, comments or suggestions which you feel would further his progress.

Sincerely,

Martin C. Helldorfer (handwritten signature)
