"Sensitive Information"
Per Protective Order

Archdiocese of Seattle

Describe the alleged abuse:

[redacted] her sister and her parents moved to [redacted] Washington in 1970 and became members of the Catholic parish in Burlington. [redacted] was around eight years old at this time. [redacted] and her sister attended CCD classes for the first time at the parish and Father Cody offered to give them a ride home. He then befriended the family and became a frequent visitor at their house. Father Cody invited the girls to several sleepovers at his "house" (probably the rectory) as well as at a cabin out in the woods. A few times the entire family went along but usually it was [redacted] her sister and other young girls. It was common for Father Cody to sleep in the same bed as the girls. One night while [redacted] was sleeping next to Father Cody, he asked her if she were awake. [redacted] pretended to be asleep. Father Cody then pulled down her panties and from behind put his penis between her legs so that it was rubbing on her genital area. [redacted] froze. She did not understand what he was doing to her and felt scared and confused. After a while Father Cody left the bed and took a shower. She believes it was after this episode that she was no longer willing to participate in the sleepovers. [redacted] did not tell anyone about this until she was an adult and asked her sister if Father Cody had molested her as well.

Witnesses to the alleged abuse:

None.

Assistance the victim is seeking:

[redacted] came forward at the urging of Fr. Jim Dalton with whom she recently spoke when he was visiting her dying mother. Fr Dalton told her that it was important to report the abuse to the diocese.

[redacted] has already had extensive counseling around this abuse and feels that she has processed the experience and is not in need of further counseling. She does feel she had a wrenching loss of innocence and trust based on the experience with Father Cody. She has not attended church for many, many years. [redacted] has been married to the same man for many years and has two grown daughters.

We talked briefly about a settlement. That was not her goal when making the call but acknowledged that financial settlements are the currency of damages in our culture. She said she would be willing to work with me and has no interest in working with an attorney.

Follow Up

I will send [redacted] a letter with information about her options. Next steps will include a face to face meeting with her.
