very concerned about Gene - something seems wrong
have I been in contact — yes!

he is not his old self - quick retirement - he
doesn't want to do anything - just sits in a
chair - her sister in Florida wants to get
him involved but he doesn't want to do anything

told her I felt the quick retirement was due
to his health and the pressure of the building
project at Ridgely.

we discussed the building of a retirement facility
which might help. (She feels he needs to be up
here - close to his friends.)

he plans to visit here Dec. 19 and stay with
Jim Eckrich.
