

February 12, 2004

His Eminence Joseph Cardinal Ratzinger  
Congregation for the Doctrine of the Faith  
Piazza del S. Uffizio 11  
00193 Rome, Italy

Your Eminence:

In accord with the *Charter for the Protection of Children and Youth* and *The Essential Norms* which are in effect in the United States, I am referring several cases for your consideration. I take very seriously the problem of sexual abuse of minors by clergy and the ensuing public outcry over past inaction by church officials. The demand for justice is one that receives a favorable hearing from me.

However, I also believe firmly that some situations call for justice tempered by mercy. I have reviewed carefully all of cases of alleged sexual abuse of minors by clergy. We are in the methodical process of preparing all such cases for referral to the Congregation. In the course of that review, I have come to the conclusion that some clerics, even though we are convinced about the substance of the allegations and even though, in some cases, the cleric has confessed, should not be imposed with canonical penalties.

I am sending in this mailing the cases of those priests whose life situations are such that a canonical penal trial or an administrative dismissal would be unreasonable. They are either of such advanced age or fragile health that such actions could be tantamount to a death sentence. Therefore, in each case I am asking that the priest be permitted to live out whatever may remain of his life in prayer and penance. The elements of such a life will be designed along the protocols presently being prepared by the Conference of Bishops. In all cases, there would be no public ministry permitted and the priest would not present himself publicly as a priest by title or attire.

Thank you for your consideration of these requests. Should Your Eminence determine that an alternate action be taken, I stand ready to accede to your wishes.

With sentiments of esteem, I am,

Sincerely yours in Christ,

Most Reverend Timothy M. Dolan  
Archbishop of Milwaukee
