Dear Paul:

It was good to receive your note and I "enjoyed" the photos of your recuperating from facial surgery. If I didn't know you had the surgery, I would have guessed the injuries were the result of being a bit player in a Rambo movie!

Summer was good. It moved fast and now we are into a very active year. The foliage, although it is not in its fullness, is very striking this year.

I passed your notes on to Bishop Hughes regarding updating the original letters. I think he might wait until your doctor writes a letter.

This evening I'm having supper with Paul Walsh's sisters Rita and Mary. It will be good to see them. Gerry Pashby, Dan Hurley and Paul Berube are also joining us.

You are in my prayers, Paul. Take care.

Sincerely,

RCAB 00657
