BY _____

Honorable Judge James L. Shumate
Fifth District Courthouse
Washington County
220 N. 200 E
St. George, UT 84770

Dear Judge Shumate:

I have worked (volunteered) with Flora Jessop in the Child Protection Project since February of this year. I provided some tutoring in fifth grade math. My main contribution is writing and editing the CPP newsletter 'Polygamy News and Views'. I am starting to speak on the various topics within polygamy. I recently traveled to Colorado City and Hildale. I have viewed three documentaries on life in the Fundamentalist Latter Day Saints.

I have met women who have experienced extraordinary hurt being raised in the FLDS. This is a crushing hurt that these women must work through to rebuild their lives on the outside. It is quite a journey for them to exist on the outside, let alone thrive. These women have endured hurt beyond imagination under the rule, the tyrannical rule, of Warren Jeffs. Many women who are so broken will not escape the FLDS.

I would like to see you impose on Jeffs the maximum sentence of life imprisonment. Not only that, but I would like to see him sent to a prison in Alabama or Mississippi, indeed most horrible places.

Your stiffest sentence will provide maximum punishment on Jeffs in the civil sphere. Justice on the part of the divine will have to finish him off.

Sincerely,

Doris Miller

Dear Judge Shumate,

As a good citizen of Arizona, I would like to express my feelings about Warren Jeff's sentence. Breaking our laws in this country needs to be stopped. I just feel that a strong sentence might help to set an example for those taking his place at the cult colony and also others around the country.

It is so sad that we don't even have a facility to help these young people make the transition in Arizona.

I am sure you will be fair and hand down a sentence that will help the cause.

Thank you,
Darlene Krumping
