RE: Father Caverzan - Scalabrini Fathers

RM spoke with Father Fuglo, Provincial, about the previous allegations found in our files, along with the present cases; namely \_\_\_\_\_ and \_\_\_\_\_. In relation to our joint liability, he leaves that in the hands of his lawyer to negotiate a settlement as was done in the \_\_\_\_\_ case.

There is no longer any reason to be concerned about Father Caverson's activities as he died of cancer September 28 of this year. 1994

The Order had removed him from his ministry in Florida and allowed him to return to Italy for a two-month visit with his family. They then sent him to Caracas to their Administration Center where they do their publishing.

He died there.
