Dear Tony,

I got a letter off to Bishop Mugavero today in which I informed him of my acceptance of a full time job this summer at Jacoby Hospital in the Bronx with several options open for medical facilities come September. I mentioned that I would prefer to go back to parish work in Brooklyn in September and will await his decision.

With regard to finances; I am not only certain that I will be "paid" for the periods June to December 1982, and January to June 1983, but that the increases I requested from Jewish Hospital aiming toward the payment of a regular salary (as vice an "expense account") will be forthcoming very soon. Other than that I have received 2 checks for \$150 each month from this diocese and stipends from St. Joan. I will give you the figures upon my return.

Faithfully,  
Romano
