

REVIEW BOARD MEETING

April 2, 1998

Case # 36

This is a case of adult relationships with women in which the Review Board in 1995 requested a follow-up review. This is the first review since that time. The priest is sixty-five years old and is in active ministry as a Parochial Vicar. His Review Board restrictions remain in place. The priest has had a successful 2.25 years in ministry and continues in therapy. He will not be available for a pastorate and this has been recorded in his record according to the procedures that have been reviewed within the office. It is recommended that the restrictions remain in place and that the case be **Closed.**
